

# Membuat *Automation* pertama kalian

## Apa yang akan kamu pelajari?

1.

Cara mengatur *template project* di UiPath Studio Web.

# Gambaran Latihan (*Practice Overview*)

Dalam latihan singkat ini, kalian akan mencoba menyiapkan **Automation** yang sudah tersedia menggunakan UiPath Studio Web.

**Studio Web** adalah platform berbasis web yang mudah digunakan untuk membuat dan mengelola proses **Automation**. Platform ini dapat digunakan di berbagai sistem operasi seperti **Windows, macOS, dan Linux**, sehingga memudahkan pengguna untuk mengotomatisasi berbagai tugas di berbagai perangkat.

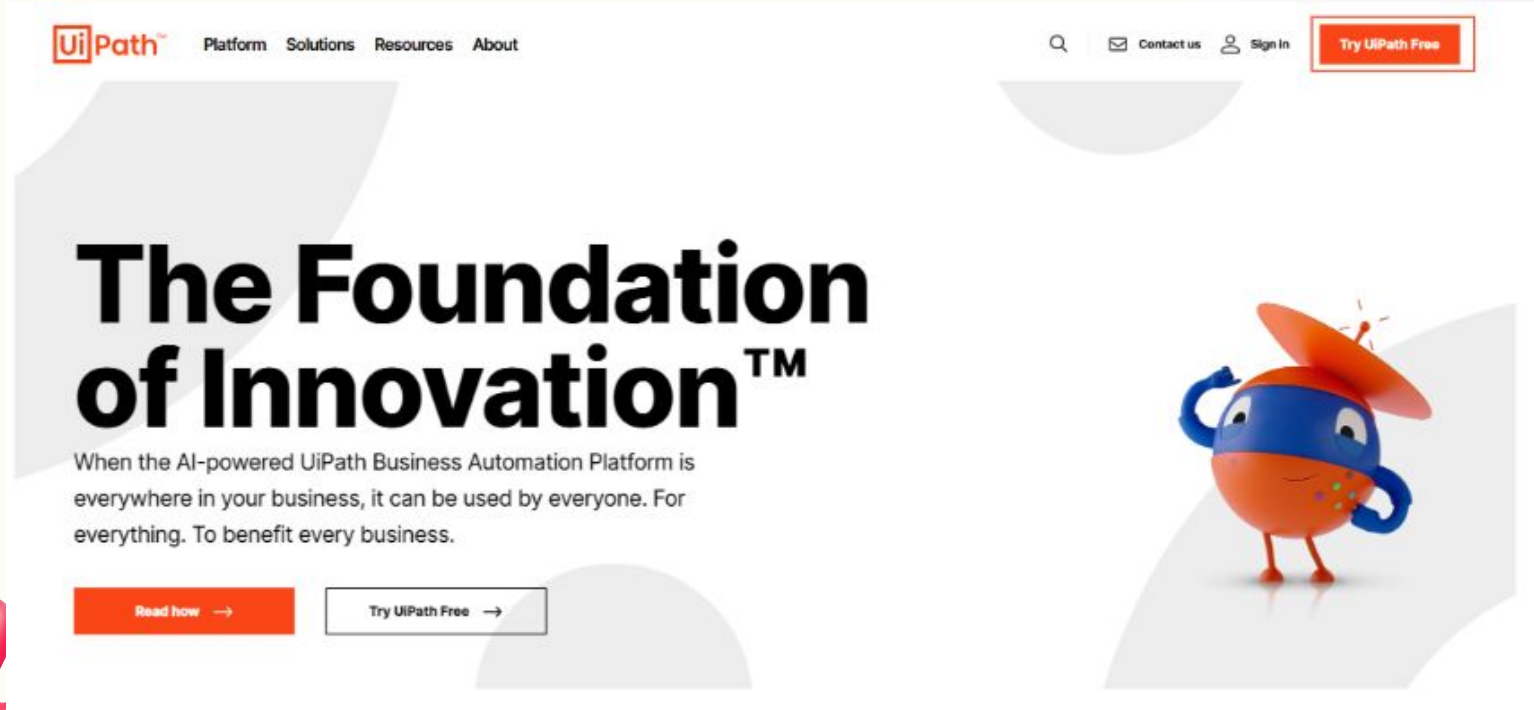

## Konteks Use Case

Tentukan tujuan baru untuk perusahaan. Kemudian jelaskan bagaimana pencapaian atau milestone saat ini dapat membantu perusahaan semakin dekat dengan tujuan tersebut.

# Apa yang perlu kalian siapkan untuk memulai?

The screenshot shows the UiPath website homepage. At the top left is the UiPath logo, followed by navigation links: Platform, Solutions, Resources, and About. On the top right, there are icons for search, contact, and sign in, along with a red button labeled 'Try UiPath Free'. The main heading is 'The Foundation of Innovation™'. Below it, a paragraph states: 'When the AI-powered UiPath Business Automation Platform is everywhere in your business, it can be used by everyone. For everything. To benefit every business.' At the bottom left, there are two buttons: a red 'Read how →' button and a white 'Try UiPath Free →' button. On the right side, there is a cartoon character of a blue and orange sphere wearing a red graduation cap and holding a diploma. The background features large, light gray abstract shapes. The entire screenshot is set against a light purple gradient background with decorative red and gray star-like shapes in the corners.
